

Login & Setup

After logging in, you will need to log into the campaign that has been previously assigned to you by a supervisor. If the assigned campaign is not correct, please notify your supervisor.

If you are ready to start receiving calls, you only need to press the **Play** button. If you need to pause for a break or any other reason that requires you to stop receiving calls, simply scroll down slightly on the screen and select the **Pause** button. Upon clicking it, a menu will appear where you must select the reason for your break.

Revision #6
